

Review Form 1.7

Journal Name:	Journal of Advances in Medical and Pharmaceutical Sciences
Manuscript Number:	Ms_JAMPS_111903
Title of the Manuscript:	Evaluation of first-line coagulation tests in Highly Active Antiretroviral Therapy (HAART) Naïve and Treatment Group
Type of the Article	Original Research Article

Review Form 1.7

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>Yes, Estimation of PT and APTT is very important to evaluate liver which is the major organ responsible for the synthesis of most the coagulation factors and infection of the liver by HIV can lead to abnormal production of coagulation factors , and for managements of HIV infected patients in resources-poor setting, where CD4 count are not done routinely</p> <p>Evaluation of first-line coagulation tests in Highly Active Antiretroviral Therapy among naïve HIV infected, and treated patients, hospital-based a case control study.</p> <p style="text-align: center;">yes</p> <p style="text-align: center;">yes</p> <p style="text-align: center;">yes</p> <p>1. Getawa S, Adane T. Coagulation parameters in human immunodeficiency virus infected patients: a systematic review and meta-analysis. <i>AIDS Research and Treatment</i>. 2022 Apr 21;2022.</p> <p>2. Oloro OH, Oke TO, Obeagu EI. Evaluation of Coagulation Profile Patients With Pulmonary Tuberculosis and Human Immunodeficiency Virus in Owo, Ondo State, Nigeria. <i>Madonna University journal of Medicine and Health Sciences</i> ISSN: 2814-3035. 2022 Oct 16;2(3):110-9.</p> <p>3. Chamroonkul N, Bansal MB. HIV and the liver. <i>Nature Reviews Gastroenterology & Hepatology</i>. 2019 Jan;16(1):1-2.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>yes</p>	
<p>Optional/General comments</p>	<p>Please kindly add the following points before the References in your manuscript:</p> <p>CONSENT AND ETHICAL APPROVAL</p> <p>ACKNOWLEDGEMENTS</p> <p>COMPETING INTERESTS</p>
