<p>Compulsory REVISION comments</p> <ol style="list-style-type: none"> Is the manuscript important for scientific community? (Please write few sentences on this manuscript) Is the title of the article suitable? (If not please suggest an alternative title) Is the abstract of the article comprehensive? Are subsections and structure of the manuscript appropriate? Do you think the manuscript is scientifically correct? Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<ol style="list-style-type: none"> The abstract lacks the necessary depth and clarity to provide a comprehensive overview of the research. We suggest revising the abstract to succinctly convey the key objectives, methods, results, and conclusions of the study. The organization of the manuscript, including subsections, requires improvement for better coherence and flow. Consider restructuring the manuscript to enhance readability and logical progression. Concerns were raised about the scientific accuracy of certain aspects of the manuscript. It is imperative to address these issues by revising the methodology and ensuring the accuracy of results and interpretations. While the references provided are relevant, there is a need for more recent and pertinent sources to strengthen the literature review. We recommend including additional references to support the arguments presented in the manuscript. 	
<p>Minor REVISION comments</p> <ol style="list-style-type: none"> Is language/English quality of the article suitable for scholarly communications? 		
<p>Optional/General comments</p>
