

Review Form 1.7

Journal Name:	Asian Journal of Food Research and Nutrition
Manuscript Number:	Ms_AJFRN_111725
Title of the Manuscript:	Ethylene Management in Fresh Produce Transport
Type of the Article	

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>1. Yes, the manuscript is important for the scientific community because it addresses a significant problem in postharvest losses of fresh produce, provides valuable insights into ethylene production and its impact on quality, focuses on a relevant topic for Nigeria's agricultural sector, offers potential solutions for improving produce quality and marketability, and contributes to sustainable agriculture practices by reducing waste.</p> <p>2. The title of the article is suitable because it is clear, concise, and informative, accurately reflects the main topic of the research, and uses relevant keywords for search purposes.</p> <p>3. Yes, the abstract is comprehensive and provides a good overview of the research. It briefly introduces the problem and its significance, states the research objectives and hypothesis, describes the methodology used in the study, and highlights the key findings and their potential impact.</p> <p>4. Yes</p> <p>5. Yes</p> <p>6. Yes, Overall, the list of references appears sufficient and recent.</p> <ul style="list-style-type: none"> Clearly articulate the gap in existing knowledge that your research aims to address. Is there a specific aspect of ethylene management in Nigerian agriculture that hasn't been explored before? Highlight the potential economic and social impact of successful ethylene management in the context of Nigeria. Quantify the potential losses or gains, if possible. 	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	It seems well-written and grammatically correct with appropriate scientific terminology.	
<p>Optional/General comments</p>	This is a well-written and informative abstract that effectively summarizes the research on ethylene management in fresh produce transport. Incorporating the suggested improvements will further enhance its clarity, conciseness, and impact.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
