Title of the Manuscript:	<b>A preliminary study on the evaluation method of junior high school music academic performance</b>
Type of the Article	

**Review Form 1.7**

**PART 1: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p><b>Compulsory</b> REVISION comments</p> <p><b>1. Is the manuscript important for scientific community?</b> (Please write few sentences on this manuscript)</p> <p><b>2. Is the title of the article suitable?</b> (If not please suggest an alternative title)</p> <p><b>3. Is the abstract of the article comprehensive?</b></p> <p><b>4. Are subsections and structure of the manuscript appropriate?</b></p> <p><b>5. Do you think the manuscript is scientifically correct?</b></p> <p><b>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</b></p> <p><b><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></b></p>	<p>The manuscript appears to be significant for the scientific community, especially within the field of music education and assessment. The manuscript emphasizes the importance of aligning assessment methods with the "Music Curriculum Standards" of compulsory education. The manuscript discusses proposition principles, including scientific, accurate, innovative, and fair principles, which could contribute to advancements in educational assessment practices. systematic analysis of knowledge points can contribute to a better understanding of students' learning trajectories and inform more effective teaching and assessment strategies. The manuscript provides a comprehensive evaluation, reflects a holistic understanding of student learning and can contribute to a more accurate representation of their overall abilities. Overall, the manuscript seems to provide valuable insights and practical guidelines for educators, curriculum developers, and researchers in the field of music education.</p> <p>The title of the article is generally suitable as it clearly conveys the focus and scope of the research</p> <p>The provided abstract gives a general overview of the subject matter, and briefly mentions the importance of the examination. The abstract also touches upon the author's involvement in a research project related to the examination methods in Shaanxi Province. However, the abstract could be more detailed in providing specific findings or conclusions from the research, and it could clarify the practical implications of the results for teachers or education in general. Additionally, information about the sample size or methodology of the research would enhance the comprehensiveness of the abstract. Overall, while it covers the main aspects of the research, it could be more specific and detailed.</p> <p>The manuscript seems to have a reasonable structure with clear subsections. The sections are organized in a logical sequence, providing a comprehensive exploration of the topic.</p> <p>It's recommended that the manuscript undergoes a thorough peer review process to ensure its scientific accuracy. Peer reviewers, who are experts in the field of music education and assessment, can provide valuable insights into the validity of the methods, the appropriateness of the proposed principles, and the overall scientific rigor of the manuscript.</p> <p>Suggested Reference 1: Marsh, K.
