PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p><u>Compulsory</u> REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>Yes</p> <p>Yes</p> <p>Yes</p> <p>Yes</p> <p>Yes</p> <p>Yes</p>	
<p><u>Minor</u> REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>Yes</p>	
<p><u>Optional/General</u> comments</p>	<p>1. The authors had done a biopsy which was suggestive of a round cell tumor. Was IHC performed on the specimen to confirm the type of tumor pre op ?</p> <p>2. If the biopsy showed a malignant tumor why was a lumpectomy done and not a complete mastectomy ? Was axilla addressed in the initial surgery ?</p> <p>3. Were the margins all clear in the surgical HPE ?</p> <p>4. How many cycles of chemotherapy did the patient receive ? and was she able to complete the course ?</p> <p>5. How many months after the completion of chemotherapy was the recurrence ?</p> <p>6. Given that the recurrence was disastrous with diffuse metastasis, was the patient followed up before this visit ? And were chromogranin levels used as markers for follow up ?</p> <p>7. What was the treatment given for the metastatic disease ?</p> <p>8. Is any further follow up of the patient available ? Did she manifest with serotonin syndrome ?</p>
