

**Review Form 1.7**

Journal Name:	<b>Asian Journal of Case Reports in Medicine and Health</b>
Manuscript Number:	<b>Ms_AJCRMH_119423</b>
Title of the Manuscript:	<b>Effects of Saroglitazar on Liver fat and fibrosis in Metabolic Dysfunction Associated Steatotic Liver Disease at 24 weeks: A Case report</b>
Type of the Article	<b>Case report</b>

## Review Form 1.7

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p><b>Compulsory</b> REVISION comments</p> <p>1. <b>Is the manuscript important for scientific community?</b> (Please write few sentences on this manuscript)</p> <p>2. <b>Is the title of the article suitable?</b> (If not please suggest an alternative title)</p> <p>3. <b>Is the abstract of the article comprehensive?</b></p> <p>4. <b>Are subsections and structure of the manuscript appropriate?</b></p> <p>5. <b>Do you think the manuscript is scientifically correct?</b></p> <p>6. <b>Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</b></p> <p><b><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></b></p>	<p>Yes, it is an important study reporting the periodic follow-up and positive effects of Saroglitazar treatment for Non-alcoholic fatty liver disease (NAFLD), which has become an important health problem worldwide.</p> <p>A shorter title can be created that emphasizes the main purpose of the study.</p> <p>Yes, the abstract of the manuscript contains enough information.</p> <p><b>'Material and Method', 'Statistical analysis', 'Conflict of Interest' and 'Funding'</b> subsections should be added. In the <b>'Material and Method' section</b>; the institution and polyclinic information which the individual included in the study applied should be given, the information about the laboratory in which the analyses were carried out and the analysis methods used in the study should be clearly stated. In addition, the information about ethics committee approval and volunteer consent form which received from the individual included in the study should be explained. Furthermore, in <b>'Statistical analysis'</b> subsection; information about the software used for statistical analysis and the analyse methods used for the evaluation of all data obtained should be clearly stated. Conflict of interest status between authors should be stated in the <b>'Conflict of interest'</b> section. Moreover, if is there any institution or organization that provides financial support for the study, it should be stated in the <b>'Funding'</b> section.</p> <p>There are missing subheadings, I mentioned it in the previous question part.</p> <p>The references are recent but not sufficient. The information should be given in the <b>'Introduction'</b> section about the increasing prevalence of non-alcoholic fatty liver disease (NAFLD) worldwide and the success rate of its treatment. Additionally, more detailed information needs to be provided regarding the worldwide use of saroglitazar, its dosage and the success rate of its treatment. Is there another approved treatment agent that is widely used worldwide for Non-alcoholic fatty liver disease (NAFLD)? If any, brief general information should be given about their success in the treatment process. In addition, the information of How the drug dose determined in the current study should be explained. If any side-effects it should be explained clearly.</p>	
<p><b>Minor</b> REVISION comments</p> <p>1. <b>Is language/English quality of the article suitable for scholarly communications?</b></p>	<p>Yes, it is suitable.</p>	
<p><b>Optional/General</b> comments</p>
