

Review Form 1.7

Journal Name:	Journal of Scientific Research and Reports
Manuscript Number:	Ms_JSRR_119763
Title of the Manuscript:	Effect of bioagents on quality and soil analysis in Ridge gourd
Type of the Article	

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>1. Pesticides/fungicides that are used to protect crops against pest and diseases are potentially toxic to humans, plants and the environment. In the recent years consumers are very concerned over the side effect of chemicals and as such alternative methods through use of bio control agents have attracted worldwide attention. Hence it uses should comply with good agricultural practices and the present investigation is the need of the hour</p> <p>2. The Scientific name of Ridge gourd in bracket should be mentioned in the Title of the article</p> <p>3. The abstract should contain the statistical findings of the most effective treatment from the research activities</p> <p>4. Subsection: Introduction should also contain the rationale of the work with clear justification of why the experiment was undertaken. Materials and methods section: Should mention the names of Bioagents used and their source and how the Bioagents were applied to the crop. Results and Discussion section: After every finding proper justification should be given to the results that are obtained in the investigation. Only single pest and disease is mentioned in the present investigation. If any should also be mentioned.</p> <p>5. The manuscript is Scientifically correct.</p> <p>6. Some more references on the bioagents used in the present study in relation to the crop should be mentioned</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>2. Yes, the article is suitable for scholarly communications with few minor corrections</p>	
<p>Optional/General comments</p>		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Are there ethical issues in this manuscript?</p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
