

## Review Form 1.7

Journal Name:	<b>Journal of Scientific Research and Reports</b>
Manuscript Number:	<b>Ms_JSRR_119819</b>
Title of the Manuscript:	<b>First report of aphid, <i>Astegopteryx bambusae</i> (Buckton) (Aphididae: Hemiptera) on Bambo (<i>Dendrocalamus strictus</i>) from Gujarat, India</b>
Type of the Article	

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaljsrr.com/index.php/JSRR/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p><b>Compulsory</b> REVISION comments</p> <p>1. <b>Is the manuscript important for scientific community?</b> (Please write few sentences on this manuscript)</p> <p>2. <b>Is the title of the article suitable?</b> (If not please suggest an alternative title)</p> <p>3. <b>Is the abstract of the article comprehensive?</b></p> <p>4. <b>Are subsections and structure of the manuscript appropriate?</b></p> <p>5. <b>Do you think the manuscript is scientifically correct?</b></p> <p>6. <b>Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</b></p> <p><b>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</b></p>	<p>1. <b>Yes, this is an important article, as it reports on the first-ever identification of a species of aphid that is causing major damage to an economically important crop.</b></p> <p>2. <b>Yes</b></p> <p>3. <b>The summary needs to be revised</b></p> <p>4. <b>Yes</b></p> <p>5. <b>The article needs to be improved</b></p> <p>6. <b>More references will certainly improve the work. I suggest you consult the article by Ait Amar et al (2021): Aphid survey reveals the first record of the bramble aphid <i>Aphis ruborum</i> (Börner &amp; Schilder, 1931) (Hemiptera: Aphididae) in Algeria, and a second report for Africa after 59 years. African Entomology <b>29</b> (2): 649–657.</b></p>	
<p><b>Minor</b> REVISION comments</p> <p>1. <b>Is language/English quality of the article suitable for scholarly communications?</b></p>	Yes	
<p><b>Optional/General</b> comments</p>	It's a very interesting and original piece of work, but it needs to be improved because in this form it's more of a note than an article. There needs to be more discussion of this species of insect pest, which causes serious damage to crops.
