

**Review Form 1.7**

Journal Name:	<b>South Asian Research Journal of Natural Products</b>
Manuscript Number:	<b>Ms_SARJNP_115819</b>
Title of the Manuscript:	<b>CHEMICAL COMPOSITION AND ANTIOXIDANT POTENTIAL OF ETHYLACETATE LEAF EXTRACT OF GOSSYPIUM HIRSUTUM LINN</b>
Type of the Article	

## Review Form 1.7

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p><b>Compulsory</b> REVISION comments</p> <p>1. <b>Is the manuscript important for scientific community?</b> (Please write few sentences on this manuscript)</p> <p>2. <b>Is the title of the article suitable?</b> (If not please suggest an alternative title)</p> <p>3. <b>Is the abstract of the article comprehensive?</b></p> <p>4. <b>Are subsections and structure of the manuscript appropriate?</b></p> <p>5. <b>Do you think the manuscript is scientifically correct?</b></p> <p>6. <b>Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</b></p> <p><b>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</b></p>	<p>1. Yes, the manuscript appears to be important for the scientific community, particularly for researchers and professionals working in fields related to natural product chemistry, phytochemistry, pharmacology, and drug discovery</p> <p>2. Yes, 'Phytochemical Analysis and Free Radical Scavenging Activity of Gossypium hirsutum Linn Leaf Extract Using Ethyl Acetate Fraction' (optional)</p> <p>3. Yes, but limited detail on methods and no future directions</p> <p>4. Overall, the manuscript follows a logical structure, adhering to the conventions of scientific writing.</p> <p>5. Its Oki</p> <p>6. Reference is not recent most of them are before 10years ago no more than 7 references in these 5 years. Ref. No. 15, 24, 29, 34, 41, 42...</p>	
<p><b>Minor</b> REVISION comments</p> <p>1. <b>Is language/English quality of the article suitable for scholarly communications?</b></p>	<p>Yes, the language and English quality of the article are suitable for scholarly communications. However, some minor grammatical errors and inconsistencies need to be addressed for improved clarity and professionalism. For instance, in the sentence "Phenols are secondary metabolites synthesized through the Shikimic acid and Phenylpropanoid pathways," a missing comma after "metabolites" should be added for clarity.</p>	
<p><b>Optional/General</b> comments</p>	<ul style="list-style-type: none"> <li>✚ Some sentences could be rephrased for better clarity and coherence. Additionally, minor grammatical errors such as missing commas or incorrect verb forms should be corrected.</li> <li>✚ Ensure consistency in terminology and formatting throughout the article. Consistent use of terminology enhances readability and understanding.</li> <li>✚ Aim for clarity in explanations and descriptions. Complex concepts should be explained in a clear and concise manner to make the article accessible to a wide audience.</li> <li>✚ Ensure that all sources are properly cited and referenced according to the required style guide</li> <li>✚ Conduct a thorough proofreading to catch any typos, spelling errors, or formatting issues. A polished final draft will leave a positive impression on readers and reviewers.</li> <li>✚ Overall, with some minor revisions and improvements, the article can effectively communicate scholarly insights in the field</li> </ul>
