

Review Form 1.7

Journal Name:	Asian Journal of Biochemistry, Genetics and Molecular Biology
Manuscript Number:	Ms_AJBGMB_119341
Title of the Manuscript:	EFFECT OF GARCINIA KOLA ON IVERMECTIN INDUCED TOXICITY IN THE HEMATOLOGY OF TREATED RATS (RATTUS NOVERGICUS)
Type of the Article	Original Research Article

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>I believe the study introduces novel findings on Garcinia kola and it is likely to advance our understanding and stimulate further research. Its findings could be pivotal in shaping new approaches and treatments within the field. Fortunately, the study offers potential solutions to current challenges on ivermectin-induced toxicity on liver function.</p> <p>Yes, it effectively conveys the main idea; however, a minor correction could make it even better: EFFECT OF GARCINIA KOLA ON IVERMECTIN-INDUCED TOXICITY IN THE HEMATOLOGY OF TREATED RATS (RATTUS NOVERGICUS)</p> <p>Yes, it provides a clear and concise summary of the key points</p> <p>Yes</p> <p>Yes, I think the article provides specific evidence to support its findings</p> <p>Yes, although maybe using this new reference as the most recently published article could help boost the quality of this paper: Osuji CA, Kalu AN, Obioma OC, John OC. Comparative Effects of Garcinia kola and Garlic Extracts on Some Liver and Haematological Functions in High Salt Diet-Induced Hypertensive Wistar Rats. International Journal of Biochemistry Research & Review. 2024 Feb 1;33(2):1-0.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>There are numerous grammatical errors, typos, and spacing issues that need to be corrected for better readability</p>	
<p>Optional/General comments</p>	<p>Some sentences are unclear or vague and need to be rephrased for clarity and precision</p>
