Manuscript Number:	Ms_AJRRGA_117411
Title of the Manuscript:	Expert opinion on the prescription practice of proton pump inhibitors in Indian settings for managing gastro-esophageal reflux diseases
Type of the Article	Original Research Article

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p><b>Compulsory</b> REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>1- I think this cross-sectional study has some importance to the clinical field as it evaluated the opinion of selected physicians regarding prescription practice for proton pump inhibitors in management of GERD.</p> <p>2- I think the title is appropriate. However, I recommend adding the term "cross-sectional study" to the title to indicates nature of this study.</p> <p>3- Yes, the abstract looks comprehensive.</p> <p>4- Yes, the manuscript is structured in the correct style.</p> <p>5- Yes, I think this study is scientifically correct.</p> <p>6- Yes, the used references are sufficient but not all of them are recent.</p> <p>7- For the keywords, authors are advised to add the word "cross-sectional".</p> <p>8- For the introduction, authors are advised to mention GRED symptoms and possible causes of the disease. Also, authors should mention GRED treatment options. In the end of introduction section, authors should include aim of this study.</p>	
<p><b>Minor</b> REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>Writing quality is good but some mistakes in punctuations like extra spaces must be corrected.</p>	
<p><b>Optional/General</b> comments</p>
