<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>Tuberculosis (TB) is an infectious bacterial disease caused by <i>Mycobacterium tuberculosis</i> and most commonly affects the lungs resulting in pulmonary tuberculosis. The human immunodeficiency virus (HIV) infection continues to modify the radiographic pattern of pulmonary tuberculosis. Therefore, the present study was conducted to relate the chest radiographic findings of patients with HIV/PTB co-infection for their viral load. They concluded that there was no significant relationship between chest radiographic findings and patients' plasma viral load.</p> <p>Yes, Appropriate</p> <p>Yes, abstract is comprehensive</p> <p>Yes, Subsection and contents of the manuscript is appropriate as</p> <p>Yes</p> <p>No, Kindly update the recent references upto 2024.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>Yes, language of the article is suitable for scholarly communication</p>	
<p>Optional/General comments</p>	<p>Article is very well written and references upto 2019 has been added. Kindly add latest reference in the manuscript upto 2024. Chest X-ray pictures and graphical represent of data is missing which make the research paper less effective. Tables are depicted in manuscript which gives self explanatory results of the work done.</p> <p>Typing mistakes may be due to different format of windows</p>
