

Review Form 1.7

Journal Name:	Journal of Experimental Agriculture International
Manuscript Number:	Ms_JEAI_120051
Title of the Manuscript:	Influence of urea foliar nutrition and leaf harvesting intensity on growth, yield attributes and yield in cowpea (<i>Vigna unguiculata</i> (L.) Walp.)
Type of the Article	Original Research Article

Review Form 1.7

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>The manuscript entitled " Influence of urea foliar nutrition and leaf harvesting intensity on growth, yield attributes and yield in cowpea (Vigna unguiculata (L.) Walp.) " is well-organized and the results are clearly presented with appropriate tables and figures. However, the following things to be considered for the improvement of the manuscript.</p> <ul style="list-style-type: none"> • Minor grammatical errors and typographical mistakes should be corrected for improved readability. • Consistent use of scientific terminology and units of measurement is maintained throughout the paper. • The introduction is well-written, but adding a brief review of related studies could strengthen the background. For example, "Previous studies have shown that foliar application of nutrients can enhance crop yield and quality under various environmental conditions [3, 4]." • Include details about the statistical methods used for analysis (e.g., software, specific tests) in the Materials and Methods section. • Expand the conclusion to include implications of the study, practical applications, and suggestions for future research. <p>Yes</p> <p>Yes</p> <p>Yes</p> <p>Yes</p> <p>Yes</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<ul style="list-style-type: none"> • Minor grammatical errors and typographical mistakes should be corrected for improved readability. 	
<p>Optional/General comments</p>
