

**Review Form 1.7**

Journal Name:	<b>Asian Journal of Advances in Agricultural Research</b>
Manuscript Number:	<b>Ms_AJAAR_119861</b>
Title of the Manuscript:	<b>Phytoremediation of Aquatic Plants: Harnessing Nature's Power to Cleanse Water Bodies</b>
Type of the Article	<b>Review Article</b>

## Review Form 1.7

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p><b>Compulsory</b> REVISION comments</p> <p>1. <b>Is the manuscript important for scientific community?</b> (Please write few sentences on this manuscript)</p> <p>2. <b>Is the title of the article suitable?</b> (If not please suggest an alternative title)</p> <p>3. <b>Is the abstract of the article comprehensive?</b></p> <p>4. <b>Are subsections and structure of the manuscript appropriate?</b></p> <p>5. <b>Do you think the manuscript is scientifically correct?</b></p> <p>6. <b>Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</b></p> <p><b>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</b></p>	<p>Phytoremediation is a green approach that uses plants and associated microbes to remove toxins from contaminated locations. It was created in recent decades and is powered by solar energy. It is an environmentally beneficial, low-cost, safe, and long-term approach for heavy metal cleanup in soil. 70% of Author's research is not distinct from another research in the same field. Very low level knowledge contribution to the scientific community.</p> <p>yes</p> <p>yes</p> <p>yes</p> <p>yes</p>	
<p><b>Minor</b> REVISION comments</p> <p>1. <b>Is language/English quality of the article suitable for scholarly communications?</b></p>	yes	
<p><b>Optional/General</b> comments</p>	<p>(i) 1. Author should give an idea of the study area (sampling sites). All procedures should be referenced whether standard or not.</p> <p>(ii) Author should relate his findings with other similar published reports relating to Heavy metal accumulation and Phytoremediation.</p> <p>(iii) Arrange keywords in alphabetical manner</p> <p>(iv) Try to write sentences in own words rather than quoting references as it is, from other articles. It is necessary to form original and novel article and also to avoid future issues.</p> <p>(v) Write conclusions in point wise manner</p> <p>(vi) Arrange references as per journal style.</p> <p>(vii) 70% of Author's research is not distinct from another research in the same field. Very low level knowledge contribution to the scientific community.</p>	

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p><b>Are there ethical issues in this manuscript?</b></p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
