

**Editor's Comment:**

After careful perusal of the revisions done by the author based on the recommendations of the reviewers, I hereby recommend acceptance of the paper for publication after further revisions of the ff.

1. Revisit the manuscript and put the punctuation on the word students as plural possessive (students'), especially on the title.
2. The word Pearson and Likert should begin with the capital letter. These correspond to the names of the person.
3. Include standard deviation in all descriptive tables to see the dispersion since all have the same descriptive ratings of high.
4. Add in the discussion on the correlation between students' attitudes on school climate the word positive (strong positive correlation not just strong correlation).
