<p><b>Minor</b> REVISION comments</p> <p>1. <b>Is language/English quality of the article suitable for scholarly communications?</b></p>	<p>This should be amended in numerous places. There are substantial problems with plural forms and with subject/verb agreement. For instance, "carnivore" is misspelled. "Plethora of" is usually used as "a plethora of..." Please review this; it is especially distracting.</p>	
<p><b>Optional/General</b> comments</p>	<p>Please develop the portions of your manuscript that deal with epigenetics; this significance of this section should be highlighted while it is treated largely as an "also we have noted..." or an afterthought.</p>
