Is the title of the article suitable? (If not please suggest an alternative title) 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>Recommendation: Minor Revision</p> <p>Comments: Thank you for submitting this paper. I like the idea of "ANALYSIS OF EXTERNAL DEBT AND REAL ECONOMIC GROWTH OF DEVELOPING ECONOMIES: NIGERIA'S EXPERIENCE". This has some of merits. However, the paper does not currently meet all standards of the journal and it requires more work. I am outlining my suggestions below in the hope they will be helpful.</p> <p>kind regards</p> <p>ABSTRACT The purpose is unclear and needs rewriting to make it more paper-specific.</p> <p>INTRODUCTION The derivation of the research gap needs more clarification and seems to base on slightly outdated literature. The discussions here need to be more convincing and stringently focused on the research problem, the contributions, rewriting the introduction as per academic writing, The introduction needs more citations and updated sources. However, I would like to see strong theoretical justification and support from literature about how your study is important at this time.</p> <p>LITERATURE REVIEW This section also needs more writing of the literature and use to resent literature from good journals. You would need to review the literature more in-depth to find literature relevant for your work and to then outline what the gap that you will address is.</p> <p>METHODOLOGY The methodology section should be clearer of the applied research approach. Please respecify how the studies utilized in the analysis were identified. In the general the methodology section is kind of weak something needs many improvements.</p> <p>FINDINGS The findings need to justify your results and link the results with theories and recent studies from good journals.</p> <p>CONCLUSION The paper also needs a more suggestions for further research.</p> <p>THE REFERENCES The references needs to be compatible APA style, and needs more recent references.</p>
