<p>Compulsory REVISION comments</p> <ol style="list-style-type: none"> Is the manuscript important for scientific community? (Please write few sentences on this manuscript) Is the title of the article suitable? (If not please suggest an alternative title) Is the abstract of the article comprehensive? Are subsections and structure of the manuscript appropriate? Do you think the manuscript is scientifically correct? Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<ol style="list-style-type: none"> Sure Try to start your title with an interrogative word, such as why, who, how and what. This helps pique your audience's interest and offers relevance to them. For example, an article may have a title like: "What Sports Drinks Should Athletes Consume?" This title targets athletes and holds their attention by posing a question the reader may share. Yes, but try to increase length. Instead of "Colour" (4.5) you should have to write " procedure" There are few mistakes, remove plagiarism 100% References are sufficient but try to maintain Allienment.
