Journal Name:	International Journal of Plant & Soil Science
Manuscript Number:	Ms_IJPSS_120025
Title of the Manuscript:	Performance of rosy adenium (Adenium obesum) genotype under Prayagraj agro-climatic conditions.
Type of the Article	

ReviewForm1.7

PART1:Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<ul style="list-style-type: none"> • The manuscript would benefit from a clearer explanation of the significance of the study in the introduction, including its relevance to the horticultural industry and environmental sustainability. • It is important to ensure that the results are represented in a clear and understandable manner, with appropriate statistical analysis and discussion of the findings in the context of existing literature. • The manuscript should include a discussion on the limitations of the study and potential areas for future research. • The reviewer recommends checking the manuscript for typographical errors and improving the clarity of the language for better readability. 	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>The language and English quality of the manuscript is generally appropriate for scientific communication, but there are some grammatical errors and inefficient sentence usage. It is advisable to improve sentence structure and format citations according to the desired style.</p> <ul style="list-style-type: none"> • The manuscript uses appropriate technical terms but needs to ensure that all less common terms are well explained to facilitate the reader's understanding. • It is necessary to double-check to correct typographical errors and inaccuracies in the use of terms. It is important to ensure consistency in the use of terms and writing style throughout the manuscript. • Manuscripts require careful editing and proofreading to improve language quality, correct errors, and increase reader awareness. 	
<p>Optional/General comments</p>
