Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Please write few sentences regarding the importance this manuscript for scientific community. Why do you like (or dislike) this manuscript? Minimum 3-4 sentences may be required for this part.</p>	<p>The topic addressed is a current topic that requires special attention from all actors in order to preserve and continue to cultivate these traditional products, such as the cultivation of this special type of lemon in this area.</p>	
<p>Is the title of the article suitable? (If not please suggest an alternative title)</p>	<p>The title is appropriate as it also highlights the object of this study.</p>	
<p>Is the abstract of the article comprehensive? Do you suggest addition (or deletion) of some points in this section? Please write your suggestions here.</p>	<p>Yes. I think that the abstract of the article is comprehensive.</p>	
<p>Are subsections and structure of the manuscript appropriate?</p>	<p>I think that you should present the objectives of the study and reflect the methodology by analyzing it through economic models and related hypotheses to see the impact of the variables.</p>	
<p>Please write few sentences regarding the scientific correctness of this manuscript. Why do think that this manuscript is scientifically robust and technically sound? Minimum 3-4 sentences may be required for this part.</p>	<p>The topic addressed is very current but requires special attention from all actors from the government to the farmers. As such, I think that the author, to add more value to this work, should do a more in-depth economic analysis accompanied by economic models, hypotheses and statistical processing. Also, the author can present some recommendations in his judgment on how some possible solutions can be to support the farmers of the area in the continuation of the cultivation of this traditional lemon of the area.</p>	
<p>Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p>	<p>I think the references are enough.</p>	
<p><u>Minor</u> REVISION comments</p> <p>Is language/English quality of the article suitable for scholarly communications?</p>	<p>I think it needs some corrections, but in general it is understandable and acceptable.</p>	
<p><u>Optional/General</u> comments</p>	<p>Regardless of my opinion, I think that if it adds a little more detailed economic-statistical analysis as above, this study would affect the continuation of the cultivation of this traditional culture.</p>
