Review Form 1.7

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>The manuscript is important for the scientific community because it provides a clear and comprehensive explanation of key concepts in disaster management. It emphasizes the importance of understanding the difference between hazards and disasters, assessing vulnerability and risk, and improving capacity to build resilient societies. These insights are valuable for both theoretical understanding and practical application in disaster risk reduction and management.</p> <p>The article title is suitable. It helps to clarify fundamental concepts in disaster management, including hazard, disaster, vulnerability, risk, and capacity improvement. Also, It emphasizes the importance of understanding these terms to effectively engage in disaster risk reduction and disaster management.</p> <p>The abstract is comprehensive with clarity.</p> <p>The subsections and structure are well arranged.</p> <p>The content of the manuscript is scientifically correct as it adheres to established principles and widely accepted definitions in disaster management and risk reduction. The manuscript's explanations are consistent with current scientific understanding and literature on these topics.</p> <p>65% of the references are of recent. On this, I would recommend the author should add some recent references. The references are not enough.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>The author needs to use grammar checker app to correct some spellings and punctuation marks.</p>	
<p>Optional/General comments</p>		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Are there ethical issues in this manuscript?</p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
