Manuscript Number:	Ms_JEAI_118684
Title of the Manuscript:	To Study Correlation Between Yield and its Components in Eggplant (Solanum melongena L.)
Type of the Article	Research

Review Form 1.7

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>1. The manuscript is well written</p> <p>2. Yes</p> <p>3. Yes, but there are corrections that need to be made and a sentence that needs to be revised again.</p> <p>4. Yes, but there are corrections that need to be made.</p> <p>5. I found the manuscript scientifically correct, but a bit lacking in terms of analysis. It would be better if it was supported by PCA analysis.</p> <p>6. There are different types of citations that are used in the article, e.g. (16,17,18,19,20,21,22), (Aykroyd, 1963) and (Chen and Li, 1996³). Please use the citation style of the journal. Please be organised by journal reference style. More up-to-date literature can be added in introduction. Please discuss the characteristics with more up-to-date literature in result and discussion.</p> <p>7. Please provide an explanation of the acronyms used in the table.</p> <p>8. Which statistical programme was used in the evaluation of the data?</p> <p>9. This section should group traits under phenotypic and genotypic traits.</p> <p>10. The units of the characteristics received must be specified. For example cm, day, % etc.</p> <p>11. Please check for spelling mistakes by following the 'track changes' section.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	Suitable	
<p>Optional/General comments</p>	But please check for spelling mistakes by following the 'track changes' section.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Are there ethical issues in this manuscript?</p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
