

Review Form 1.7

Journal Name:	Journal of Engineering Research and Reports
Manuscript Number:	Ms_JERR_119091
Title of the Manuscript:	Exploring Performance Metrics of OFDM, F-OFDM, FBMC, and UFMC Modulation Techniques for 5G Wireless Communication in Terms of PSD, BER, and SNR
Type of the Article	Original Research Article

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>1. Yes. It is important in the concept of scalability and performance analysis in 5G core network. The multiple extended targets in 5G also included for further process based applications.</p> <p>2. The title of the article is not suitable. It is little bit messy. Mention clear, simple and precise.</p> <p>3. The abstract should contain elaborate methodology used in the work along with problem statement. The main objective of the abstract was missed. Definition of problem statement is must for research papers.</p> <p>4. The subsections could be clear and elaborate. They shouldn't be simple.</p> <p>5. Ok. The manuscript is scientifically correct.</p> <p>6. Not sufficient. Should include more references.</p> <p>Also concentrate on utilisation of millimetre wave based mobile or user device applications and recent or proposed scheduling algorithms for 5G network.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	Yes	
<p>Optional/General comments</p>	The paper is ok for research but missed some comparisons belongs to technologies before 5G and latest advancements in 5G.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
