

**Review Form 1.7**

Journal Name:	<b>Journal of Scientific Research and Reports</b>
Manuscript Number:	<b>Ms_JSRR_119862</b>
Title of the Manuscript:	<b>Unveiling India's Export Success: The Remarkable Performance of Gherkins</b>
Type of the Article	

**Review Form 1.7**

**PART 1: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p><b>Compulsory</b> REVISION comments</p> <ol style="list-style-type: none"> <li><b>Is the manuscript important for scientific community?</b> (Please write few sentences on this manuscript)</li> <li><b>Is the title of the article suitable?</b> (If not please suggest an alternative title)</li> <li><b>Is the abstract of the article comprehensive?</b></li> <li><b>Are subsections and structure of the manuscript appropriate?</b></li> <li><b>Do you think the manuscript is scientifically correct?</b></li> <li><b>Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</b></li> </ol> <p><b><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></b></p>	<p><b>Title page:</b> Formulate the title methodically. The researcher must include the study period in the title.</p> <p><b>Abstract:</b> <b>The abstract</b> should be formulated according to the methodology recognized in the journal. An abstract briefly explains the salient aspects of the content. Abstracts should be accurate and succinct, self-contained, and readable. The abstract should paraphrase and summarise rather than quote from the paper. Abstracts should relate only to the paper to be presented/assessed.</p> <p><b>Keywords:</b> Keywords should be chosen carefully and in accordance with the research methodology. It should not be less than 5 words according to the publication regulations in the journal. include 4-8 keywords and cite between 2-4 references.</p> <p><b>Introduction:</b> The introduction needs to be reformulated and use modern references, not websites and links.</p> <p><b>Methodology:</b> Where is the source of the methodology, models and tests used to achieve the objectives of the study? We did not see any reference to this methodology. The methodology must be divided into two paragraphs, the first of which is the data, its source, and how it is collected. The second is the models and tests used to test the study hypotheses.</p> <p><b>Results and Discussion:</b> The practical aspect is very weak. The researcher did not examine the data through conventional tests in statistical and econometric analysis. His discussion of the methodology, tests, and models used was very weak.</p> <p><b>Discussion:</b> It is very simple and It must be linked to the findings of the researcher. with interpretation and discussion</p> <p><b>References:</b> By adding paragraphs in the introduction and methodology and increasing references and sources The most modern and most read References must be current and impactful. 2017-2023. They must be arranged in alphabetical order. The references are very simple, indicating that previous studies that support the study were not included.</p> <p><b>The tool used in the analysis:</b> It was not mentioned Spss or Eviews or NCSS or any tools</p>	
<p><b>Minor</b> REVISION comments</p> <ol style="list-style-type: none"> <li><b>Is language/English quality of the article suitable for scholarly communications?</b></li> </ol>	No
