I hope you pay attention to the instructions for placing tables and figures and adhere to them throughout the text. 3. Usually, we use a font size of 12 for the body of the text and 14 for the main titles, with bold style. 4. It would be better if the text was formatted so that before each table there was an appropriate explanation, or to postpone placing the entire tables at the end of the pages. However, placing them in their current form is annoying to the reader, as we notice that the tables violate the sequence of ideas in the text.
