

Editor's Comment:

According to the mentioned paper, please find attached file of the manuscript as a Track-changes copy, and it has

some corrections that have to be done by the author.

Also I'd like to add the following comments.

- 1- Re-consider the comments of the reviewer's.
- 2- The abstract is too long (>500 words), it has to be shortened
- 3- In the beginning there is indication to fig(2) before figure (1).
- 4- The reference of fig(2) is not clear(What do you mean by authors, 2015???)
- 5- Fig.2 is not clear
- 6- No indication to fig 4 within text
- 7- Figures from 17 to 22, are seem to be stretched up and down, it should be modified.

After considering these comments the paper can be accepted for publication.
