PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write few sentences regarding the importance this manuscript for scientific community. Why do you like (or dislike) this manuscript? Minimum 3-4 sentences may be required for this part.	Honestly, this manuscript should be improved. First of all, the introduction is one page away from the abstract. secondly, I would see the tables included in the text, not at the end of the work. Reading this work is dizzying. Apart from these aspects, in the abstract reference is made to financial institutions as creditors, and in the body of the work friends, relatives, usurers are also mentioned as financiers. Some lines in the paper have the smaller font. Why? Only three bibliographic sources, one of which is more than ten years old. It is not OK.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes.	
Is the abstract of the article comprehensive? Do you suggest addition (or deletion) of some points in this section? Please write your suggestions here.	Concretely, which are the nominal financing institutions?	
Are subsections and structure of the manuscript appropriate?	Yes.	
Please write few sentences regarding the scientific correctness of this manuscript. Why do think that this manuscript is scientifically robust and technically sound? Minimum 3-4 sentences may be required for this part.	Somewhat.	
Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. -	References are not enough. I have a feeling of deja-vu. Works were also written in India on the cultivation of grapes in order to transform them into raisins. I myself reviewed such an article some time ago.	
Minor REVISION comments Is language/English quality of the article suitable for scholarly communications?	Maybe it would be good if the amounts, respectively the percentages, were expressed in English.	
Optional/General comments	To be reviewed by the author.
