<p>Compulsory REVISION comments</p> <ol style="list-style-type: none"> Is the manuscript important for scientific community? (Please write few sentences on this manuscript) Is the title of the article suitable? (If not please suggest an alternative title) Is the abstract of the article comprehensive? Are subsections and structure of the manuscript appropriate? Do you think the manuscript is scientifically correct? Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>		
<p>Minor REVISION comments</p> <ol style="list-style-type: none"> Is language/English quality of the article suitable for scholarly communications? Yes 		
<p>Optional/General comments</p>	<p>The review considers the effect of chitosan on postharvest management. This work follows an interesting sequence that addresses many aspects of this important compound.</p> <p>It shows recent and several references.</p> <p>It would be interesting to try to write some words formally (So, Its, there's, it's, etc...).</p> <p>I suggest being consistent with the word: postharvest, posth-arvest and post harvest. I consider choosing only one, and use it in the whole text.</p> <p>All figures are not cited in the text. It is recommended to do it.</p> <p>Likewise, I do not know if the tables and figures presented in the work correspond to the author. In this case, give them the corresponding credit, adjusting to the editorial policies of the journal.</p>
