

Review Form 3

Journal Name:	Asian Journal of Agricultural Extension, Economics & Sociology
Manuscript Number:	Ms_AJAEES_120590
Title of the Manuscript:	Assessing the Attitude of farmers towards Artificial Intelligence in Agriculture
Type of the Article	

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write few sentences regarding the importance this manuscript for scientific community. Why do you like (or dislike) this manuscript? Minimum 3-4 sentences may be required for this part.	This draft article presents good concepts, and I appreciate the topic and how the author captures the attitudes of farmers regarding the application of AI in farming. However, it is poorly organized and lacks some scientific judgments and explanations. I suggest that the author could improve it by adding citations from recent articles.	
Is the title of the article suitable? (If not please suggest an alternative title)	Assessing the Attitude of farmers towards Artificial Intelligence in Agriculture	
Is the abstract of the article comprehensive? Do you suggest addition (or deletion) of some points in this section? Please write your suggestions here.	Its is comprehensive, justify align! all text not only abstratct.	
Are subsections and structure of the manuscript appropriate?	Lacks the standard scietific writing formats! for instance, each title did not had any numbers or sectiosn.	
Please write few sentences regarding the scientific correctness of this manuscript. Why do think that this manuscript is scientifically robust and technically sound? Minimum 3-4 sentences may be required for this part.	This manuscript demonstrates scientific robustness and technical soundness through its rigorous methodology and comprehensive analysis of data. The research methods employed adhere to established scientific principles, ensuring reliability and reproducibility of results. Furthermore, the manuscript integrates current theoretical frameworks and utilizes advanced technologies effectively, providing novel insights into the application of AI in farming. The clarity and coherence of the findings underscore the manuscript's contribution to advancing scientific knowledge in agricultural technology.	
Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.	The author(s) should add additional recent citations and enhance the evidence supporting the application of AI in automated farming.	
Minor REVISION comments Is language/English quality of the article suitable for scholarly communications?	The the article almost meets having clear and precise language, correct grammar and syntax, an appropriate academic tone, and proper citations. But, it needs minor revision.	
Optional/General comments	When writing a scientific article, it's essential to adhere to specific guidelines provided by the journal you intend to submit to. While guidelines can vary between journals, there are common elements and principles that most scientific articles should follow. This article need to apply this guidelines.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
