Journal Name:	<a href="#">Asian Journal of Agricultural Extension, Economics &amp; Sociology</a>
Manuscript Number:	<b>Ms_AJAEES_120590</b>
Title of the Manuscript:	<b>Attitude of farmers towards Artificial Intelligence in Agriculture</b>
Type of the Article	<b>Research</b>

## Review Form 3

### PART 1: Review Comments

<b>Compulsory</b> REVISION comments	<b>Reviewer's comment</b>	<b>Author's Feedback</b> (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Please write few sentences regarding the importance this manuscript for scientific community. Why do you like (or dislike) this manuscript? Minimum 3-4 sentences may be required for this part.</b>	This study on farmers' attitudes towards AI in agriculture in Dindigul district, Tamil Nadu, is important because it shows how farmers feel about using AI technologies. It reveals that farmers see AI as helpful for things like predicting weather, monitoring sustainability, and detecting pests. This research is relevant because it discusses how AI can improve farming practices, which is crucial for ensuring food security and sustainability. It's a significant contribution to agricultural science and policymaking efforts. Table 3 values needs to be clear and check with reference papers.	
<b>Is the title of the article suitable? (If not please suggest an alternative title)</b>	<b>Its suitable</b>	
<b>Is the abstract of the article comprehensive? Do you suggest addition (or deletion) of some points in this section? Please write your suggestions here.</b>	<b>Based on references authors can add points in abstract.</b>	
<b>Are subsections and structure of the manuscript appropriate?</b>	<b>No, authors need to add literature survey and citation.</b>	
<b>Please write few sentences regarding the scientific correctness of this manuscript. Why do think that this manuscript is scientifically robust and technically sound? Minimum 3-4 sentences may be required for this part.</b>	By focusing on specific AI applications such as weather prediction and pest monitoring, it addresses pertinent challenges in modern agriculture. Its empirical approach likely provides reliable data, offering valuable insights into how AI can contribute to enhancing agricultural sustainability and productivity in Dindigul district, Tamil Nadu.	
<b>Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</b>	<b>References needs to add from the year of 2022. There is no citation. Required to follow the proper format for references. Suitable images are required to add.</b>	
<b>Minor</b> REVISION comments		
<b>Is language/English quality of the article suitable for scholarly communications?</b>	After updating, will consider for publication	
<b>Optional/General</b> comments		

### PART 2:

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
