<p>Minor REVISION comments</p> <p>Is language/English quality of the article suitable for scholarly communications?</p>		
<p>Optional/General comments</p>	<p>Introduction Average The writer's voice is missing only quotes from author. It will be more meaningful to add their views on what other authors are saying.</p> <p>Methodology The tools used to collect data. Observation. Survey and interviews are very relevant to the study. - Which tool was used to analyse the results? - How were the results validated more explanation on what modern validation is needs to be captured for readers.</p> <p>Overall - The paper is missing the background and even literature which more arguments should lean on. - Not conceptual framework or theoretical framework to underpin the work done.</p> <p>Conclusion More revision is required. Otherwise the contribution is relevant for physical emotional well being of students.</p>
