Please write few sentences regarding the importance this manuscript for scientific community. Why do you like (or dislike) this manuscript? Minimum 3-4 sentences may be required for this part.	The manuscript "Compelling Classroom Accumulation and Harmonious Teaching of Public Elementary School Teachers" is significant for the scientific community because it addresses critical issues in educational development, particularly in the context of elementary school teaching. It highlights the importance of compelling teaching and harmonious classroom environments for improving teacher commitment and student outcomes. I appreciate this manuscript because it underscores the necessity of fostering a supportive and collaborative environment for both teachers and students. The findings suggest that experienced teachers, who have accumulated substantial skills and knowledge, are better equipped to manage classrooms effectively and create engaging learning experiences. This has important implications for teacher training and professional development programs, emphasizing the need for continuous growth and learning.	
Is the title of the article suitable? (If not please suggest an alternative title)	The title should show the method of this manuscript. For example: Assessing Classroom Accumulation and its Effect on Harmonious Teaching in Elementary Education.	
Is the abstract of the article comprehensive? Do you suggest addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract of the article is generally comprehensive, but there are a few areas that could be improved for clarity and completeness. Here are my suggestions: (1) Summarize the most important findings more explicitly. (2) Briefly mention the practical implications of the findings.	
Are subsections and structure of the manuscript appropriate?	Yes, it is appropriate.	
Please write few sentences regarding the scientific correctness of this manuscript. Why do think that this manuscript is scientifically robust and technically sound? Minimum 3-4 sentences may be required for this part.	The manuscript "Compelling Classroom Accumulation and Harmonious Teaching of Public Elementary School Teachers" demonstrates scientific robustness and technical soundness for several reasons: (1) Methodological Rigor: The study employs a non-experimental quantitative research design using correlational methods, ensuring that the relationship between variables is rigorously analyzed. The use of universal sampling with 132 respondents enhances the representativeness of the sample. (2) Comprehensive Data Analysis: The application of statistical tools such as mean, Pearson r, and regression analysis provides a thorough examination of the data. This ensures that the findings are statistically significant and reliable.	
Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. -	Yes, it is suitable.
