EDITORIAL COMMENT'S on revised paper <i>(if any)</i>	Authors' response to editor's comments
<p>1. basic data on the geographical distribution, population, language and religion of the Maasai is needed. A map of the Mvomero district in Tanzania would help the reader understand the surrounding environment of the Maasai people.</p> <p>2. the eight document analysed in the CDA model need to be described in a table. It is difficult to read the explanations in the text, section 2.2.</p> <p>3. in the last section (Conclusion and recomendation), no previous studies are cited at all. It is necessary to explain in this section how the findings of this study could contributes to previous studies.</p>	<p>1. There is an improvement on the district economic profile, location and the map. As indicated in the main document there is a difficulty in establishing exact population size of the Maasai community in the district.</p> <p>2. The table showing a summary of accessed and analysed project documents is presented in table 1 in the reviewed paper</p> <p>3. There is an addition of some the literatures that concur with the drawn conclusions and recommendations of this paper</p>
