Titleof theManuscript:	Pathogenicityof root-knotnematode,Meloidogyneincognitaontuberoase(PolianthestuberosaL.)
Typeof the Article	

PART1: ReviewComments

Compulsory REVISIONcomments	Reviewer's comment	Author's Feedback (Pleasecorrectthemanuscriptandhighlightthatpart inthemanuscript.Itismandatorythatauthorsshouldwritehis/herfeedback here)
Pleasewritefew sentencesregardingtheimportance thismanuscriptforscientificcommunity.Whydo you like(ordislike)thismanuscript?Minimum3-4 sentencesmayberequiredforthispart.	Tuberoase(<i>Polianthestuberosa</i> L.)isoneof thepopularbulbousornamentalcrops. Itis perennialinnatureandbelongstotheAmaryllidaceaefamily. <i>Meloidogynespp.</i> asan importantpathogenof tuberoase. Gallformationintherootsis thediagnosticsymptomofroot-knotnematodeinfestation.	
Isthetitleofthearticlesuitable? (Ifnotpleasesuggestanalternativetitle)	yes	
Istheabstractofthearticlecomprehensive?Doyou suggestaddition(ordelation)of somepointsinthis section?Pleasewriteyoursuggestionshere.	Without suggestion	
Aresubsectionsandstructureofthemanuscript appropriate?	yes	
Pleasewritefew sentencesregardingthescientific correctnessofthismanuscript.Whydothinkthatthis manuscriptisscientificalllyrobustandtechnically sound?Minimum3-4sentencesmayberequiredfor thispart.	The treatments applied are well justified. The treatments are well explained. The experimental design used is robust. The variables evaluated are appropriate. The units of measurement are correct. The statistical analysis is correct. Analysis of variance and the corresponding mean comparison tests have been conducted. The images of the tuber treatments are illustrative and reflect the results obtained.	
Are there references sufficient and recent? If you have suggestion of additional references, please mention in the review form. -	It is suggested to enrich the results with a broader discussion and much more recent references For the introduction and discussion sections of the manuscript, it is suggested to include several more recent references, preferably those published after the year 2020.	

ReviewForm3

Minor REVISIONcomments Is language/English quality of the articles suitable for scholarly communications?	yes	
Optional/General comments	<p>Isuggest including in the conclusions a statement about the relationship between the level of infestation and economic damage. In other words, highlight a conclusion about the economic damage (In objective).</p> <p>For the introduction and discussion sections of the manuscript, it is suggested to include several more recent references, preferably those published after the year 2020</p>	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
