

Review Form 1.7

| | |
|--------------------------|--|
| Journal Name: | Journal of Scientific Research and Reports |
| Manuscript Number: | Ms_JSRR_119606 |
| Title of the Manuscript: | Experimental Investigation of Hardness and Impact Variability in Agricultural Equipment Materials |
| Type of the Article | |

PART 1: Review Comments

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|---|---|---|
| <p>Compulsory REVISION comments</p> <ol style="list-style-type: none"> Is the manuscript important for scientific community? (Please write few sentences on this manuscript) Is the title of the article suitable? (If not please suggest an alternative title) Is the abstract of the article comprehensive? Are subsections and structure of the manuscript appropriate? Do you think the manuscript is scientifically correct? Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p> | <p>The manuscript is important for scientific community because it provides a comparison between the hardness and impact resistance of ten types of tree wood.</p> <p>The title is not entirely appropriate because it does not directly address all agricultural equipment materials. An alternative title may be "Comparison of hardness and impact resistance of ten wood trees for agricultural equipment".</p> <p>The abstract of the article is comprehensive. Authors are invited to review some terms.</p> <p>Subsections and structure of the manuscript is appropriate in general provided that authors consider some modifications introduced in red colour regarding some terms, capital letters, location of Table No. 1 and Figure No. 7 and some formulations, and wording of some phrases and sentences.</p> <p>The manuscript is scientifically correct, although it suffers from lack of results interpretation and comparison with previous literature.</p> <p>The references are sufficient and recent, noting that the most recent reference dates back to 2016. On the other hand, only 5 references out of 20 are mentioned in the manuscript, some of which need review for first and first author.</p> <p>Authors are highly invited to review some modifications introduced in red colour regarding some terms, capital letters, location of Table No. 1 and Figure No. 7 and some formulations, and wording of some phrases and sentences.</p> | |
| <p>Minor REVISION comments</p> <ol style="list-style-type: none"> Is language/English quality of the article suitable for scholarly communications? | <p>Authors are highly invited to review some terms, capital letters, and some formulations, and wording of some phrases and sentences.</p> | |
| <p>Optional/General comments</p> | <p>Authors are highly invited to review the manuscript and to improve results interpretation and consistence with previous literature.</p> | |
