

**Review Form 3**

Journal Name:	<b>Asian Journal of Medicine and Health</b>
Manuscript Number:	<b>Ms_AJMAH_120446</b>
Title of the Manuscript:	<b>Complicated Cholecystitis-An Update on Management: Narrative Review article</b>
Type of the Article	

### Review Form 3

#### PART 1: Review Comments

<b>Compulsory</b> REVISION comments	<b>Reviewer's comment</b>	<b>Author's Feedback</b> (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write few sentences regarding the importance this manuscript for scientific community. Why do you like (or dislike) this manuscript? Minimum 3-4 sentences may be required for this part.	This manuscript will be helpful in guiding clinician regarding management of acute complicated cholecystitis. Complicated cholecystitis management requires early decision making regarding its definitive treatment in form of cholecystectomy. The manuscript provides a comprehensive review of the management strategies in complicated cholecystitis.	
Is the title of the article suitable? (If not please suggest an alternative title)	yes	
Is the abstract of the article comprehensive? Do you suggest addition (or deletion) of some points in this section? Please write your suggestions here.	Abstract is comprehensive	
Are subsections and structure of the manuscript appropriate?	Though literature search methodology need not be described in narrative review, but if it has been included, make a separate section of methods after introduction, currently it is included in introduction section	
Please write few sentences regarding the scientific correctness of this manuscript. Why do think that this manuscript is scientifically robust and technically sound? Minimum 3-4 sentences may be required for this part.	The manuscript is scientifically correct, but it can improve further if the author can make an algorithm for approaching the patients of acute complicated cholecystitis and add a brief about charlson comorbidity index adopted by the Tokyo guidelines as one of the main criteria in the management of acute cholecystitis and predicting difficult cholecystectomy	
Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.	Yes, Sufficient and recent	
Minor REVISION comments		
Is language/English quality of the article suitable for scholarly communications?	Needs grammar correction	
<b>Optional/General</b> comments
