

Review Form 3

Journal Name:	Journal of Advances in Biology & Biotechnology
Manuscript Number:	Ms_JABB_120631
Title of the Manuscript:	Evaluation of Genotypes and Varieties Against Foliar Blight Disease of Onion (<i>Allium cepa</i> L.)
Type of the Article	

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write few sentences regarding the importance this manuscript for scientific community. Why do you like (or dislike) this manuscript? Minimum 3-4 sentences may be required for this part.	The manuscript is significant as it addresses a major disease affecting onion crops, which is crucial for food security and agricultural economy. The study provides valuable data on disease resistance in various genotypes, which can guide breeding programs and disease management strategies.	
Is the title of the article suitable? (If not please suggest an alternative title)	The title is appropriate and accurately reflects the study's content.	
Is the abstract of the article comprehensive? Do you suggest addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract is comprehensive. No additions or deletions are necessary.	
Are subsections and structure of the manuscript appropriate?	The manuscript is well-structured with clear subsections.	
Please write few sentences regarding the scientific correctness of this manuscript. Why do think that this manuscript is scientifically robust and technically sound? Minimum 3-4 sentences may be required for this part.	The study is scientifically robust and technically sound. The methodology is thorough, and the results are well-presented and discussed.	
Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.	References are sufficient and recent. No additional references are required.	
<u>Minor</u> REVISION comments		
Is language/English quality of the article suitable for scholarly communications?	The language is suitable for scholarly communications. Minor grammatical and typographical errors can be corrected during the final editing process.	
<u>Optional/General</u> comments	The manuscript provides valuable insights into the resistance of various onion genotypes and varieties to foliar blight disease. The findings can significantly contribute to the development of resistant onion cultivars.	

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
