

Review Form 1.7

Journal Name:	Archives of Current Research International
Manuscript Number:	Ms_ACRI_120008
Title of the Manuscript:	Population dynamics of whitefly and disease incidence of Yellow Vein Mosaic Virus disease in okra
Type of the Article	

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <ol style="list-style-type: none"> Is the manuscript important for scientific community? (Please write few sentences on this manuscript) Is the title of the article suitable? (If not please suggest an alternative title) Is the abstract of the article comprehensive? Are subsections and structure of the manuscript appropriate? Do you think the manuscript is scientifically correct? Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>The manuscript is important for the researches working on whitefly transmitted virus in Okra crops</p> <p>The article's title is in accordance with its content.</p> <p>The article's abstract needs a better redaction.</p> <p>The manuscript's sections and structure can be better.</p> <p>There are some important missing details. Information on field experiment's location and virus detection methods are missing.</p> <p>It is possible to expand the references</p>	
<p>Minor REVISION comments</p> <ol style="list-style-type: none"> Is language/English quality of the article suitable for scholarly communications? 	<p>English quality of the article must improve.</p>	
<p>Optional/General comments</p>	<p>Researchers must prioritize incorporating virus detection methods in their work to effectively address and manage potential viral threats. Due to the prevalence of symptomatic infections, it is necessary to use thorough and accurate virus detection methods. Also, whitefly species identification must be clearly described in the M&M section.</p>	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Are there ethical issues in this manuscript?</p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
