

Review Form 1.8

Journal Name:	Asian Journal of Advanced Research and Reports
Manuscript Number:	Ms_AJARR_120179
Title of the Manuscript:	Optimization of Financial Services Transaction Management Based on Blockchain Empowerment and Hierarchical Clustering
Type of the Article	Method Article

Review Form 1.8

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Is the manuscript important for scientific community? <i>(Please write few sentences regarding this manuscript to justify your answer)</i>	This research is relevant because it detects areas of opportunity for improving efficiency and security in the management of traditional financial services transactions through integration of blockchain empowerment and hierarchical clustering technology (HCT).	
Is the title of the article suitable? (If not please suggest an alternative title)	The title of the manuscript is relevant both in its content and its length.	
Is the abstract of the article comprehensive?	The title adequately reflects the content of the manuscript and is very understandable.	
Are subsections and structure of the manuscript appropriate?	For this type of articles, the structure followed is appropriate.	
Do you think the manuscript is scientifically correct? <i>(Please write few sentences regarding this manuscript to justify your answer)</i>	The manuscript is scientifically proven since it explains and follows a logical and suggestive methodology. Likewise, the results are based on a diverse and large sample, which allows them to be given due solidity.	
Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.	The number of references used is sufficient for the research profile followed; in addition, most of them are recent, which gives greater value to the document.	
Minor REVISION comments Is language/English quality of the article suitable for scholarly communications?	The quality of the language in this manuscript is correct and conducive to academic purposes.	
Optional/General comments	The manuscript provides a novel methodology and is valuable in terms of the possibilities of its application. Since, by combining the two techniques described, it promises to make financial operations more efficient and provide them, in addition to a higher level of security.
