

Review Form 3

Journal Name:	International Journal of Environment and Climate Change
Manuscript Number:	Ms_IJECC_120763
Title of the Manuscript:	COMPARATIVE STUDY OF ABOVE GROUND BIOMASS AND CARBON STOCK IN CHAKRATA FOREST DIVISION
Type of the Article	

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write few sentences regarding the importance this manuscript for scientific community. Why do you like (or dislike) this manuscript? Minimum 3-4 sentences may be required for this part.	The manuscript will give information how much biomass is contributed to the forest and the soil .	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes	
Is the abstract of the article comprehensive? Do you suggest addition (or deletion) of some points in this section? Please write your suggestions here.	Include the finding from each of the plot , discussion and conclusion in the abstract	
Are subsections and structure of the manuscript appropriate?	Yes	
Please write few sentences regarding the scientific correctness of this manuscript. Why do think that this manuscript is scientifically robust and technically sound? Minimum 3-4 sentences may be required for this part.	Total aboveground biomass from the various plots gave how much the various species of trees yield biomass The various species of trees in the forest play a significant roles carbon sequestration Carbon stock in the various plots is of significant important in forest biomass contribution	
Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.	Recent references are needed to be added	
Minor REVISION comments		
Is language/English quality of the article suitable for scholarly communications?	Yes with a minor revision	
Optional/General comments		
	Discussion and conclusion should be capture	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
