

## Review Form 1.7

Journal Name:	<b>Journal of Scientific Research and Reports</b>
Manuscript Number:	<b>Ms_JSRR_119357</b>
Title of the Manuscript:	<b>Effect of sowing dates and nitrogen levels on growth, yield, quality and economics of Fodder maize (Zea mays L.) SFM-1</b>
Type of the Article	<b>Original Research Article</b>

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p><b>Compulsory</b> REVISION comments</p> <p>1. <b>Is the manuscript important for scientific community?</b> (Please write few sentences on this manuscript)</p> <p>2. <b>Is the title of the article suitable?</b> (If not please suggest an alternative title)</p> <p>3. <b>Is the abstract of the article comprehensive?</b></p> <p>4. <b>Are subsections and structure of the manuscript appropriate?</b></p> <p>5. <b>Do you think the manuscript is scientifically correct?</b></p> <p>6. <b>Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</b></p> <p><b>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</b></p>	<p>Yes it is important for scientific community since it has shown through field trials the combination of management factors leading to the desired crop productivity that need to be adapted by farmers.</p> <p>Yes, it is suitable with minor corrections</p> <p>Yes, comprehensive but in Keywords another word need to be included or replace one as suggested</p> <p>Appropriate, last subtitle need to be corrected as suggested (Conclusion and Recommendations)</p> <p>It is scientifically correct in layout and contents hoping it is an original work</p> <p>The references are sufficient and recent but some corrections in citation is needed</p> <p>Characterization of research materials is always essential in research work since application of the results elsewhere requires availability of similar conditions (materials). Accordingly, characterization of the climate and soils was rather essential. Relevant detailed information on soils (e.g. texture and some chemical properties) and climate (e.g. temperature and rainfall) should be included as brief tables.</p>	
<p><b>Minor</b> REVISION comments</p> <p>1. <b>Is language/English quality of the article suitable for scholarly communications?</b></p>	<p>Yes, it is suitable for scholarly communications.</p>	
<p><b>Optional/General</b> comments</p>	<p><i>Please see above comments</i></p>
