

Editor's Comment:

The manuscript titled "Monitoring and evaluation practices on the implementation of educational projects among non-governmental organizations in Kakuma refugee camp Kenya" for the Asian Journal of Economics, Business, and Accounting. I have thoroughly reviewed the manuscript and have identified a critical problem with the references.

Several references are mentioned in the text but not included in the references section, which is a significant issue for an academically published paper. Based on its current state, I am unable to approve its publication.

If the authors can address this concern and provide an updated version of the manuscript, I would be happy to reconsider it for publication.
