

Review Form 3

Journal Name:	Journal of Advances in Biology & Biotechnology
Manuscript Number:	Ms_JABB_120427
Title of the Manuscript:	Integrative Approaches in Sericulture: From Traditional Practices to Modern Technologies Sericulture and its Contribution to Biodiversity Conservation
Type of the Article	Review Article

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write few sentences regarding the importance this manuscript for scientific community. Why do you like (or dislike) this manuscript? Minimum 3-4 sentences may be required for this part.	This research topic is really important as it integrates both traditional and modern technologies for the overall development of Sericulture industry. The current topic is lacking in certain areas like not mentioning about names of high yielding silkworm and mulberry varieties developed at central level like CSB, Banglore. Also there is no mention about different reeling and rearing appliances developed. Further there is no mention about different artificial diets, herbal pesticides and bed disinfectants developed by different research institutes of country.	
Is the title of the article suitable? (If not please suggest an alternative title)	Need some modification Suggested title: Integration of traditional and modern strategies for the biodiversity conservation of sericulture	
Is the abstract of the article comprehensive? Do you suggest addition (or deletion) of some points in this section? Please write your suggestions here.	Abstract need to be brief	
Are subsections and structure of the manuscript appropriate?	yes	
Please write few sentences regarding the scientific correctness of this manuscript. Why do think that this manuscript is scientifically robust and technically sound? Minimum 3-4 sentences may be required for this part.	This topic has much relevance because it can lead to enhanced silk production and uplift economic conditions of farmers worldwide	
Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. -	Need to add more references to support the manuscript. Some references are missing but present in text	

Review Form 3

<p>Minor REVISION comments</p> <p>Is language/English quality of the article suitable for scholarly communications?</p>	<p>Reviewers report</p> <ol style="list-style-type: none"> 1. There is no mention about CSGRC (central sericultural germplasm resources center), Hosur, TAMIL NADU 2. Needs to improve with regards to grammer. Needs good English polishing and avoid poorly written sentences. 3. Add few sentences about significance of this research work in abstract section. 4. Add more updated references with valid scientific reasons to support manuscript 5. Cross check all the references mentioned in the text, as few references are missing 	
<p>Optional/General comments</p>	<ol style="list-style-type: none"> 1. More complex words have been used, need to make it lucid 2. Add more content about silkworm breds and mulberry varieties developed 3. Add more material related to transgenic silkworm and mulberry developed 4. Add some sentences about different reeling , rearing appliances developed 5. Add references about conservation of silkworm and mulberry 	

PART 2:

	<p>Reviewer's comment</p>	<p>Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</p>
<p>Are there ethical issues in this manuscript?</p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
