

**Editor's Comment:**

Editorial Status: The manuscript appears suitable for further consideration but requires additional revisions for completeness and depth.

I recommend conditional acceptance of the manuscript pending the following revisions:

1. Expand the Literature Review: Provide a more comprehensive review of relevant studies to strengthen the context and support for the research.
2. Detailed Analysis: Enhance the analysis section to provide deeper insights into the findings and their implications.
3. Clarity and Organization: Ensure the manuscript is well-organized and the presentation is clear and concise. This may involve minor copy-editing.
