<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<ul style="list-style-type: none"> - The manuscript on the expectations and problems of rural youth in agri-entrepreneurship is important for the scientific community as it sheds light on the aspirations and challenges faced by rural youth in the agricultural sector. Understanding these factors is crucial for policymakers, researchers, and stakeholders to develop targeted interventions and support mechanisms to promote agri-entrepreneurship among rural youth. Additionally, the study provides valuable insights into the needs and expectations of rural youth, which can inform the design of training programs, policies, and initiatives aimed at fostering entrepreneurship in agriculture. - Yes Suitable - The abstract of the article appears to be comprehensive as it provides a concise summary of the study's objectives, methodology, key findings, and conclusions. It outlines the research design, sample size, objectives studied, major expectations of rural youth towards agri-entrepreneurship, and the problems they face in pursuing agri-entrepreneurship. The abstract also highlights the percentage of respondents with high expectations, key challenges identified, and recommendations for supporting rural youth in agri-entrepreneurship. Overall, the abstract effectively encapsulates the essential aspects of the study, making it comprehensive for readers to grasp the main points of the research. - No its Appropriate - The manuscript appears to be scientifically correct. The study followed an exploratory research design and conducted data collection in specific districts of Maharashtra. The methodology section outlines the sampling process, data collection methods, and analysis procedures used in the study. The results and discussion section presents the findings related to the expectations and problems of rural youth in agri-entrepreneurship, supported by data from the survey of 120 respondents. The conclusions drawn from the study align with the results presented, emphasizing the importance of addressing training, guidance, support, and financial issues to promote agri-entrepreneurship among rural youth. Overall, the manuscript seems to adhere to scientific principles in its research design, data collection, analysis, and interpretation of findings. - No its Limited. 	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<ul style="list-style-type: none"> - No, need Grammer check. 	
<p>Optional/General comments</p>
