

Review Form 1.7

Journal Name:	Journal of Experimental Agriculture International
Manuscript Number:	Ms_JEAI_119104
Title of the Manuscript:	Growth and Variability in Major Fruit Spice Cultivation and Export from India
Type of the Article	

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<ul style="list-style-type: none"> Indian Spices are a high-value, low-volume product traded on the global market. The rapidly expanding global food business is heavily dependent on spices as flavour and taste enhancers . As a cash crop, the spice has immense potential for income generation of the farming community, creation and development of business opportunities and poverty reduction in India, So the findings of the manuscript are important for scientific community. Title is suitable, It may be "Growth in area, production, productivity and export of major spices in India" Abstract: It should be based on objectives, research methodology and results and discussion and some suggestion. Introduction: Mention more numbers of citation (latest references). Subsections and structure need revision with citing similar findings . references. The exponential growth model using ordinary least square (OLS) for computing compound annual growth rate may be applied to analyse the growth in area, production and productivity of major spices. Spice productivity in our country is showing continuous upward trend as result of technology advancement through research and development. What is your opinion in this aspects? Pls mention the sources of data in each table. In Conclusion: Pls make it specific according to your objectives and findings. Pls add more latest references in the manuscript of study. 	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<ul style="list-style-type: none"> Yes, Quality of article is suitable for scholarly communications. Kindly mention more references inside the text 	
<p>Optional/General comments</p>
