

Review Form 1.7

Journal Name:	Asian Journal of Advanced Research and Reports
Manuscript Number:	Ms_AJARR_119782
Title of the Manuscript:	Study on high and low temperature performance of straw fiber modified asphalt
Type of the Article	Article

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>Yes</p> <p>Yes</p> <p>Yes</p> <p>Yes</p> <p>Yes</p> <p>Yes</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>Ok</p>	
<p>Optional/General comments</p>	<p>How does the addition of different types of fibers (cotton straw fiber, basalt fiber, and polyester fiber) influence the penetration, softening point, and viscosity of modified asphalt? In what ways does the presence of fiber improve the high temperature stability and rheological properties of asphalt mortar? Which type of fiber demonstrated the best effect on improving the high temperature rheological properties of asphalt mortar? How does the addition of basalt fiber compare to polyester and cotton straw fiber in terms of improving the high temperature performance of asphalt, as indicated by softening point? What was the significance of the chart analysis in determining the optimal soaking time for cotton stalk fiber in the study on straw fiber modified asphalt?</p>	

Review Form 1.7

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
