Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write few sentences regarding the importance this manuscript for scientific community. Why do you like (or dislike) this manuscript? Minimum 3-4 sentences may be required for this part.	Parkinson's disease is a debilitating disease affecting the quality of life of patients. Since medical treatment is not very effective in improving the quality of life and functional abilities it is important to explore the role of alternative therapies in care of patients. The author has selected and highlighted this role of alternative therapies in improving patient outcomes	
Is the title of the article suitable? (If not please suggest an alternative title)	Title is apt and suitable	
Is the abstract of the article comprehensive? Do you suggest addition (or deletion) of some points in this section? Please write your suggestions here.	Abstract is comprehensive. It is suggested that a line on the findings of the literature review may be added	
Are subsections and structure of the manuscript appropriate?	Yes. It is suggested that the section of Music Therapy can be divided into subsections such as studies related to effect of music therapy, role of tempo/rhythm/ melody, Type of music and its effect etc. It is good to use PRISMA guidelines to guide and present the systematic review	
Please write few sentences regarding the scientific correctness of this manuscript. Why do think that this manuscript is scientifically robust and technically sound? Minimum 3-4 sentences may be required for this part.	The manuscript is scientifically robust and presents several evidences to highlight the importance of the concept under study. To make it technically sound it will be advisable to follow a scientific format like PRISM or PICO. Using the PICO format to present the research helps readers understand the importance of the findings. Researches can be categorised according to their findings and presented in tables.	
Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. =	References are adequate. Author may refer Introduction to systematic reviews - Systematic Review - Guides at University of Wollongong Library (libguides.com) this website to get more information on how to write a systematic review.	
Minor REVISION comments Is language/English quality of the article suitable for scholarly communications?	Language and English quality of the article is good and suitable for scholarly communication	
Optional/General comments	The article can be accepted for publication with minor revisions
