

Review Form 3

Journal Name:	International Journal of Plant & Soil Science
Manuscript Number:	Ms_IJPSS_120487
Title of the Manuscript:	Physiological and Biochemical Basis of Thermotolerance in Selectively Fertilized Coconut Hybrids
Type of the Article	

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write few sentences regarding the importance this manuscript for scientific community. Why do you like (or dislike) this manuscript? Minimum 3-4 sentences may be required for this part.	The study idea is very novel in regard to Thermotolerance of Coconut Hybrids. The parameters recorded is very important. Results gave good information for seedling tolerance for high temperature.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes.	
Is the abstract of the article comprehensive? Do you suggest addition (or deletion) of some points in this section? Please write your suggestions here.	Yes.	
Are subsections and structure of the manuscript appropriate?	Yes.	
Please write few sentences regarding the scientific correctness of this manuscript. Why do think that this manuscript is scientifically robust and technically sound? Minimum 3-4 sentences may be required for this part.	The subject of the study is modern and the recorded parameters are distinguished. The results presentation is clear and enough specially the figures. The references are recent and in the topic.	
Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.	Yes.	
Minor REVISION comments Is language/English quality of the article suitable for scholarly communications?	Yes.	
Optional/General comments	Introduction: needs more review literature about thermotolerance. Materials and methods: Is two months enough to give a good result about the exchanges in the seedlings. Needs experimental design and statistical analyses. Discussion needs to improved.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
