Journal Name:	<a href="#">Journal of Advances in Biology &amp; Biotechnology</a>
Manuscript Number:	<b>Ms_JABB_120592</b>
Title of the Manuscript:	<b>Role of Potash and other organic is vital nutrient for qualitative and Quantitative Yield of Banana (Musa pardisicsica L.) in Bihar</b>
Type of the Article	

### Review Form 3

#### PART 1: Review Comments

<b>Compulsory</b> REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write few sentences regarding the importance this manuscript for scientific community. Why do you like (or dislike) this manuscript? Minimum 3-4 sentences may be required for this part.	This manuscript is very important for scientific community, due to the nutritional importance of bananas for humans. Although their price is relatively low in India, they have high nutritional and economic value in many countries, and the prices of bananas are expensive in many countries of the world, so they may constitute a great economic return when exported, especially those that have standard nutritional specifications.	
Is the title of the article suitable? (If not please suggest an alternative title)	Role of Potash and other organic <b>as</b> vital nutrient for qualitative and Quantitative Yield of Banana ( <i>Musa pardisicsica</i> L.) in Bihar	
Is the abstract of the article comprehensive? Do you suggest addition (or deletion) of some points in this section? Please write your suggestions here.	It is preferable that the results reached by the author be mentioned briefly in the abstract.	
Are subsections and structure of the manuscript appropriate?	Yes.	
Please write few sentences regarding the scientific correctness of this manuscript. Why do think that this manuscript is scientifically robust and technically sound? Minimum 3-4 sentences may be required for this part.	<ul style="list-style-type: none"> <li>- The scientific name of banana should be in italic format (<i>Musa paradiscica</i>) as well as all scientific names mentioned in the manuscript.</li> <li>- It is preferable for kidney patients to abstain from eating bananas, due to their high potassium content. This is because it exhausts kidney functions. (The author mention it as a recommended food for kidney patients).</li> <li>- Other than that, this manuscript is scientifically strong and technically sound, and is based on scientific references, and its results are very important.</li> </ul>	
Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.	the references are sufficient and recent.	
<b>Minor</b> REVISION comments		
Is language/English quality of the article suitable for scholarly communications?	Yes.	
<b>Optional/General</b> comments
